Dear Mary,

I am a full time visual artist living in Westport since 1993. It was Westport's reputation of art & cultural activities that attracted me to this town in the first place. I am also a co-leader of Artists Collective of Westport, a group of 150 local artists. A lot of us artists feel that siting "Rocks Paper Scissors" outside the library would further signify the artistic attraction of Westport, especially in such a prominent place so visible to most Westporters and visitors.

In addition, the siting would represent the respect for the wishes of long-time library supporter and arts philanthropists Sheffer/Scheffler to place at library, not to mention this whimsical, family-friendly piece would be perfect at the library for family and children, especially after the new construction of the Library has already attracted an amazing number of parents and kids to participate in the programs.

We appreciate your support and thank you in advance for your effort. If you need any further information, please do not hesitate to contact me.

Sincerely,

- eric
