

# Skateboarding – American Originals

Westport Parks and recreation has teamed up with American Originals Skateboarding to offer a new and dynamic skateboarding program designed for children who may need some extra help and attention. American Originals is offering a skateboarding clinic in a small group setting and giving the child the extra attention that they need to master their skateboarding skills. This is a great opportunity for each participant to learn new skills and accomplish something they may have never thought they could? Through this program, children will not only learn skateboarding skills but will gain confidence, teamwork, and build friendships.
