HIC # 0565449, exp. 11/30/2020

Job Description:

Construct 27' x 22' 2 story garage over existing Driveway, Finish interior of existing garage for mudroom/ office area and pantry, construct dormer above existing garage to create walkway to new room above proposed garage, Construct new 28' x 7' covered front porch.

The proposed project is being brought to the Conservation department in Westport Connecticut for approval.

All work will be as shown on scale drawings provided to code and positioned as outlined on survey provided.

In preparation the Wetland Boundary was flagged By Soil & Wetland Science LLC, professional soil scientist Otto Theal, 2 Lloyd Rd, Norwalk, Ct, and location of flags are shown on note 15 of Survey provided by Leonard Surveyors of Westport, Ct.

Mr. Theal has also offered his service as a site monitor if required by the conservation Department  
During the time frame of the job Silt fencing will be placed around all wetland boundary areas

All areas will be raked cleaned each day and owners have planned with their landscaper to maintain and care for all existing plantings

New Garage will be constructed over existing driveway as shown on survey and scale drawings.

Garage will have standard concrete formed sides and standard slab floor to code cut into existing driveway, all debris will be removed over existing driveway not to disturb hill or grass areas.

Photos and documentation will be taken as work progresses to be available if required

Thank you

William R Nyiri
