Westport, CT 06880

Re: **Request for 8~24 Determination for a sanitary sewer extension to service;
Whitney Street, Roseville Road, Fernwood Road,
Plumtree Lane, Pamela Place & Ledgemoor Lane**

Dear Mr. Marpe:

This office has received a petition from the above referenced area requesting an extension of adjoining sanitary sewer system to service their respective neighborhoods. The petition was submitted and accepted by the Water Pollution Control Authority (WPCA) at their September 23, 2020 meeting. The proposed sanitary sewer extension is within the service area proposed in the 2002 WPCA Facility Plan.

Section 8~24 Municipal Improvements of the Connecticut General Statutes, requires a positive report from the Planning and Zoning Commission prior to extending a municipal facility such as the sanitary sewer. This office requests that you seek on behalf of the Public Works Department, a favorable 8-24 report for the extension of the existing sewer facilities to service the subject neighborhoods.

Respectfully,

Peter A. Ratkiewich
Director of Public Works

cc: Mary Young, Planning & Zoning Director
