Subject: 61 Kings Hwy South

Dear Members of the Planning and Zoning Commission,

We are writing in support of the Vindiola's wood deck at 61 Kings Highway South. Not only is their wood deck beautiful and seamlessly fits in with the landscape, we know the Vindiolas specifically chose materials to minimize water runoff. As their neighbors, we have not seen a significant change in water runoff on our property since construction of the deck. In fact, we think it would be more disruptive to remove the current deck to install a stone one. The Vindiolas have been wonderful stewards of their property since taking ownership and have created positive changes to our neighborhood.

Thank you for your time.

Sincerely,

Patra Kanchanagom and Aaron Hultgren
