## MEMORANDUM

---

**To:** Planning & Zoning Staff

**From:** Michelle Perillie, *Planning & Zoning Director*

**Date:** September 01, 2018

**Subject:** **Reviewing Excavation & Fill pursuant to Amendment #626, Regulation Sec 32.**

The following is a series of questions that you may need to answer when reviewing grading plans to determine if an excavation & fill application is required:

- 1) ***Is all of the proposed regrading within 25 feet of a principal building or structure, driveway, swimming pools, tennis court, sports court or septic system?***

If all of the proposed regrading is located within 25 feet of the items listed above then a separate Excavation & Fill Application is NOT required. See §32-8.1.2(a).

If all proposed regrading is located within 5 feet of the new subsurface drainage system on the same premises then a separate excavation & fill application is NOT required. See §32-8.1.2(b).

- 2) ***Is the proposed regrading part of a Subdivision, Site Plan or Special Permit application that is already going to be reviewed by the Planning & Zoning Commission?***

If the proposed regrading is part of one of the above referenced application type that is to be heard by the Planning & Zoning Commission a separate excavation and fill application is NOT required. See §32-8.1.2(c)

- 3) ***Does the proposed regrading extend beyond the limits in an application that was originally approved by the Planning & Zoning Commission?***

If in the course of issuing a Zoning Permit regrading activities extend beyond the scope of what was approved by the Planning & Zoning Commission as part of a Subdivision, Site Plan or Special Permit application a separate excavation & fill application will YES be required. See §32-8.1.2(c)

- 4) ***When do the standards in Westport Regulations §32-8.3 apply?***

All regrading activities must comply with the standards found in §32-8.2 even those activities that meet the exemption criteria in §32-8.1. See §32-8.1

- 5) ***Is landscaping or the temporary removal and stockpiling of top soil a regulated activity?***

No. §32-8.1.2(i) specifically exempts landscaping or the temporary stockpiling of top soil from being considered a regulated activity.

- 6) ***Is pumping of groundwater to the surface permitted when it changes natural drainage patterns?***

No it is not. Pumping of groundwater to the surface that changes natural drainage patterns is prohibited. See §32-8.3.10

7) **What is the maximum amount of excavation or fill that can be allowed on property?**

See §32-8.2.1(a) For lots of 10,000 SF or more (1 acre example)

Lot area (43,560) x Coverage (0.25) = 10,890 x 10 = 108,900 / 27 = 4,033 X 0.5 = 2,017 cubic yards of cut or fill allowed

For lots under 10,000 SF the maximum amount of cut or fill is 500 cubic yards (see 32-8.2.1(c))

8) **What is the maximum fill height allowed on a property?**

The maximum fill height, is relative to the distance from the property line but in no location can it exceed 10 feet. See §32-8.2.3. The fill height cannot exceed a ratio 0.20 relative to the distance to the property line. See the chart below for examples:

<u>Distance from Property Line</u>		<u>Maximum Fill Height</u>
50 feet	X 0.20	10 feet
30 feet	X 0.20	6 feet
25 feet	X 0.20	5 feet
20 feet	X 0.20	4 feet
15 feet	X 0.20	3 feet
7.5 feet	X 0.20	1.5 feet

9) **Are cuts and fills counted separated or are they cumulative?**

Cuts and fills are added together to obtain the net cut and fill. See §32-8.2.6. This means that even material that is excavated from and reused on the same site must be counted in the cut and fill calculations.

10) **Is any grading taking place within 5 feet of the property line?**

§32-8.3.2 prohibits any regrading within 5 feet of the property line. If there is grading within 5 feet of the property line that is not associated with a driveway the application cannot be approved and may require a variance.

11) **Can exempt activities (within 25 feet of a building or structure), be done without a permit?**

No. §32-8.1.1 requires that zoning permits be issued before any activities can be considered exempt except for incidental landscaping, repairs and stockpiling of top soil.
